# We're proposing permit parking on Marconi Road

In response to requests received from local residents who have difficulties with parking on Marconi Road, the Council is proposing to introduce permit parking. We are proposing that the permit parking operates Monday to Saturday, 8am to 6:30pm, which is consistent with permit parking operational hours in the area.

We want you to tell us what you think about the proposed introduction of a permit parking in your area.

A map is included in this leaflet to show the area permit parking is being proposed.

## Have your say

To share your views, please complete the attached questionnaire and return it to us by **Friday 18 November 2022**. You can do this by tearing off the questionnaire, folding it in half, sealing it and posting it, making sure the freepost address is visible.

## What happens next?

Local people know their neighbourhood best and we're asking everyone living or working in your neighbourhood to tell us what they think about these changes. We will analyse the results of this survey to make a decision. Permit parking will only be introduced where at least 51% of respondents are in favour of proceeding with the scheme in any area or sub area of the consultation.

Due to the high volume of responses, we will not be able to provide an individual response to each survey, but will notify you if any changes are made.

## Get in touch

If you have any questions about this consultation you can:

## What is a permit parking scheme?

Permit parking prioritises parking for local residents, businesses and their visitors through the use of a permit parking system. The Council can enforce against any vehicle parked within the zone without a valid permit by Civil Enforcement Officers issuing parking tickets.

## Why are you reviewing car parking in the area?

The main purpose is to discourage commuters and people from outside the area from driving into the area and parking in your streets, near transport hubs and destinations, and leaving their cars for long periods of time. This helps ensure that the limited on-street parking is reserved for residents.

Without a valid permit, commuters are less likely to drive to these areas and are encouraged to use more sustainable modes of transport to get to their destination – which reduces local congestion, air pollution and road danger.

## What do the proposed changes involve?

The enclosed map shows the proposed permit parking area. With a permit, parking is only permitted in designated parking spaces, while other kerbside space is subject to single or double yellow line restrictions. Where there are single yellow lines, you cannot park during the restricted hours and where there are double yellow lines, you cannot park at any time.

## Who is eligible for parking permits?

Residents, businesses, and their visitors and carers can all get parking permits for their local area.

Blue badge residents will incur no fees for a resident's permit. You can apply for a permit via the weblink: [www.myringgo.com/walthamforest/permitapplications/info/94157/BBR](http://www.myringgo.com/walthamforest/permitapplications/info/94157/BBR)

## I have a contractor/trader visiting my property, how can they park?

If you have a contractor or trader visiting for 7 to 28 days' worth of work, you can purchase a Resident Trader Permit. If the traders are visiting for just one day, they can purchase business visitor permits directly from the London Borough of Waltham Forest or you can purchase resident visitor permits yourself and supply the trader directly.

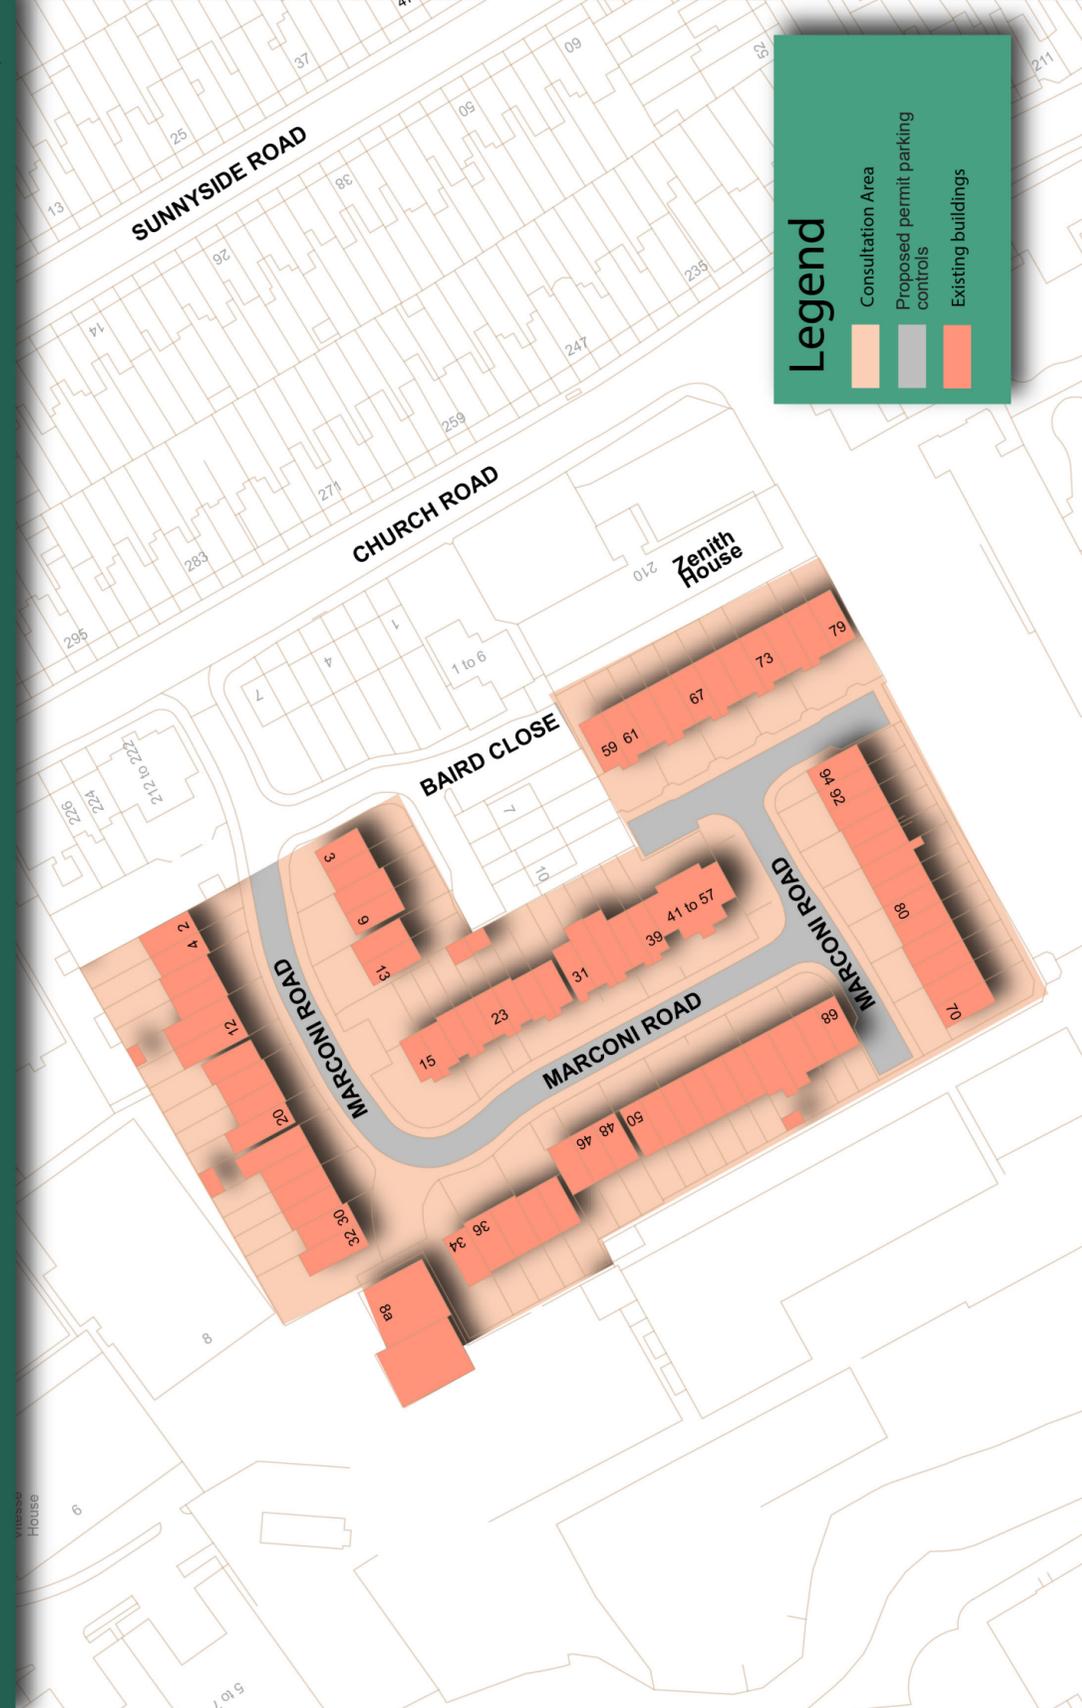

## How will parking be enforced?

Civil Enforcement Officers (CEOs) patrol the roads within the zone regularly during the permit parking hours. CEOs can issue a Penalty Charge Notice (a parking ticket) to any vehicle parking in the zone without a valid permit.

CEOs can also issue a parking ticket to any vehicle parked in a way that disregards parking regulations e.g. parking on a yellow line. Illegally parked vehicles may also be towed away.

If you are concerned about an unlawfully parked vehicle, you can contact us to request enforcement. We will then arrange for a CEO patrolling your area to visit the location and if necessary, issue a parking ticket.
