Dear Copsey,

I believe the Council's target of 1,800 homes is excessive and is not supported in their evidence to the Inquiry. The lower figure of 1,284 proposed by the GLA should be the figure adopted in the Local Plan which will encourage lower height developments and help to protect the views from Epping Forest and the Lea Valley. Heights over 10 stories will have a detrimental impact on the street scene across the Borough. Also, any new development must carbon neutral.

Kind regards
Karel Schling
