

# London Borough of Waltham Forest

## Pavement Licensing Terms and Conditions

London Borough of Waltham Forest

### Standard Pavement Licence Conditions

1. Permission to operate a pavement licence does not imply an exclusive right to the area of public highway. The licence holder must be aware that Waltham Forest Borough Council and others (e.g. police, highways authority, statutory undertakers) will need access at various times (including emergencies) for maintenance, installation, special events, improvements etc or any other reasonable cause. This may mean that the pavement licence will need to cease operating and/or be removed for a period of time. On these occasions there would be no compensation for loss of business.
2. Waltham Forest Borough Council requires evidence that the licence holder has Public Liability Insurance for the operation of the Pavement licence. This must indemnify the Council against all claims for injury, damage or loss to users of the public highway, arising from the use of the highway for the permitted purpose. The minimum level of indemnity must be £5 million in respect of any one incident.
3. Tables and chairs must not be placed in position outside of permitted times. When the licence is not in use, all tables and chairs and other furniture must be stored securely inside a premise away from the highway.
4. Waltham Forest Council are empowered to remove and store or dispose of furniture from the highway, at the cost of the licensee, if it is left there outside the permitted hours, or should any conditions of the licence be ignored. The Council will not be responsible for its safekeeping.
5. The licence holder is not to make or cause to be made any claim against the Council in the event of any property of the licence holder becoming lost or damaged in any way from whatever cause.
6. An unimpeded pedestrian route must be maintained at all times for people wishing to use the footway as per the National Licence Conditions.
7. The method of marking the boundary of the licensed area must be agreed between the licence holder and the Licensing Department. Whatever method is agreed a 2-metre clear walkway must be maintained for the use of pedestrians.
8. Emergency routes to the premises and adjacent buildings must not be obstructed which should not, in normal circumstances, extend beyond the width of the premise's frontage.
9. Tables and chairs should be of an approved type and should be kept in a good state of repair. Furniture should be placed so as not to obstruct driver sightlines, or road traffic signs. Placement of tables and chairs must allow pedestrians to use the footway parallel to the frontage of the premises. Care should be taken in the use of hanging baskets, awnings, protruding umbrellas etc. Alternative items may not be used without first seeking the written authority of the Council. Patio heaters must not be used.

10. All potential obstructions must be removed from the public highway when the premises are closed to prevent a safety hazard to pedestrians, particularly during the hours of darkness.
11. The licensee should ensure that the area operates in a safe and orderly manner, thereby ensuring that any safety risk or nuisance to customers, other users of the public highway or any adjacent land or premises, is minimised.
12. The operation of the area must not interfere with highway drainage arrangements.
13. During the hours of darkness suitable and sufficient lighting must be provided to ensure safe use of the area. Any proposals to provide additional lighting to the licensed areas must be agreed with the Highway Authority.
14. All detritus (food and drink remnants, spillages, bottles, cans, wrappers etc) be regularly removed from the footway surface to reduce hazards to pedestrians. The licence holder must make arrangements to regularly check for and to remove litter and rubbish on pedestrian walkways, caused by persons using the Facility, for a distance of up to 10 metres from the boundary of the Facility. The licence holder must ensure that any tables are cleared in an efficient manner during the hours of operation. The licence holder must ensure the licensed area and surrounding highway is to be washed down at the completion of each day's usage using a method sufficient to remove food debris, grease and other spillages that may occur.
15. The licence holder is not permitted to make any fixtures, or excavations of any kind, to the surface of the highway without prior written approval. Any costs incurred as a result of damage to the highway, due to the positioning of tables and chairs etc, will be recovered in full from the licence holder by the Council or the Highway Authority.
16. The Licensee of a premises not licensed under the Licensing Act 2003 or any modification or re-enactment thereof, must not allow the consumption of alcoholic liquor within licensed area.
17. The Licensee of a premises licensed under the Licensing Act 2003 or any modification or re-enactment thereof, must not allow the consumption of alcoholic liquor within the facility outside the hours in force for the premises itself.
18. The licence must be displayed on the premises with a plan of the agreed layout of the pavement licence.
19. The licensee is responsible for ensuring that the conditions of the licence and any other necessary permissions and regulations are adhered to. The Licence holder is to use the highway solely for the purpose of the licence in line with the provisions of this licence and for no other purpose whatsoever.
20. The licence holder must remove any tables, chairs and other furniture immediately at the end of the licence period or on revocation of the licence.

21. Waltham Forest Borough Council reserves the right to revoke this licence at any time if any of the above conditions are not fulfilled and maintained.

### **Managing Social Distancing**

The government has published the [COVID-19 Secure: safer public places guidance](#), which provides information and examples of measures that may be undertaken to adapt and manage public spaces in order to help social distancing.

When considering the minimum width needed for clear access, you will need to take into account any social distancing measures in place and ensure that these distancing measures are also applied to allow for safe passing of highway users and for the safety of any customers using the furniture, and any other likely users of the area.

### **National Conditions**

The 2020 Act sets out two conditions which apply to pavement licences which are granted or deemed to be granted these are: a no-obstruction condition and a smoke-free seating condition. These apply only to licences granted under the Business and Planning Act 2020, not existing licences permitted under Part 7A of the Highways Act 1980, or other relevant legislation.

### **Considering the needs of disabled people**

The no-obstruction condition is a condition that the licence must not have the effects set out in section 3(6) of the 2020 Act. When determining your street furniture, provisions require that you consider the needs of disabled people. In order to do this, you should consider the following matters when planning use of space.

- Section 3.1 of Inclusive Mobility sets out a range of recommended widths which would be required, depending on the needs of particular pavement users, but is clear that in most circumstances 1500mm clear space should be regarded as the minimum acceptable distance between the obstacle and the edge of the footway,
- the need for a barrier to separate furniture from the rest of the footway so that the visually impaired can navigate around the furniture, such as colour contrast and a tap rail for long cane users. In some cases, it may be appropriate to use one or more rigid, removable objects to demarcate the area to which the licence applies, for example wooden tubs of flowers. However, this will need to be balanced to ensure any barriers do not inhibit other street users, such as the mobility impaired, as such barriers may create a further obstacle in the highway;
- any conflict of street furniture with the principal lines of pedestrian movement particularly for disabled people, older people and those with mobility needs. The positioning of furniture should not discourage pedestrians from using the footway. The available route must be entirely clear and not pass through an area with tables and chairs;

- where possible furniture is non-reflective and of reasonable substance such that it cannot easily be pushed or blown over by the wind, and thereby cause obstruction.

### **Seating where smoking is not permitted**

The national smoke-free seating condition seeks to ensure customers have greater choice, so that both smokers and non-smokers are able to sit outside, in order to protect public health by reducing risks of COVID transmission.

It is important that businesses can cater to their customers' preferences. The Business and Planning Act 2020 imposes a smoke-free seating condition in relation to licences where seating used for the purpose of consuming food or drink has been, (or is to be) placed on the relevant highway. The condition requires a licence-holder to make reasonable provision for seating where smoking is not permitted. This means that where businesses provide for smokers, customers will also have the option of sitting in a non-smoking area. Ways of meeting this condition could include:

- Clear 'smoking' and 'non-smoking' areas, with 'no smoking' signage displayed in designated 'smoke-free' zones in accordance with Smoke-free (signs) regulations 2012 which can be viewed [here](#).
- No ash trays or similar receptacles to be provided or permitted to be left on furniture where smoke-free seating is identified.
- Licence holders should provide a minimum 2M distance between non-smoking and smoking areas, wherever possible.

Further, business must continue to have regard to smoke-free legislation under The Health Act 2006, and the subsequent Smoke-free (Premises and Enforcement) Regulations 2006.

Public Health England has published [guidance for smokers and vapers during the COVID pandemic](#).
