Subject: Waltham Forest Local Plan Examination

Hi Andrea,

I have read the letter from the Highams Park Planning Group dated 17th January 2023, and agree with the comments contained therein.

I also live in Merriam Close, which is close to the Rolls Playing Field. There are few allocated parking spaces in our development and this has caused connection in the nearby roads. What will more flats do to the roads? The trains are also overloaded with people and only come once every 15 mins. With more people it will probably be near to impossible to get onto a train during peak hours.

Also, my flat is south facing. When I purchased the flat I bought it knowing that my view would face onto the back of a building. It's surely an invasion of privacy if a new block of flats get built facing my windows.

I am against flats being built in the warehouses as no consideration of the residents, footfall and general well-being of people have been considered.

Monique Lane
