Subject: Housing in Highams Park

My family disagree completely with the new tower proposal in Highams Park. It is a ridiculous idea and it will take away the whole ethos of the community area. The towers are ugly not affordable because my daughter who has lived here all her 28 years will not be able to afford one .We do not have enough doctor spaces hospital spaces they are so over subscribed . The area is already congested with cars traffic people. We had so many new builds over the last few years . I appreciate we need new homes but the area cannot take more.It is awful you are taking our local petrol garage as well. There are not enough amenities in the area for children and now you want to take our swimming pool in chingford.We have to be penalised with the towers to now be pushed in to resident parking permits why should we pay to park our cars outside our houses because the new builds won't have car park spaces. I have loved living in Highams Park but I am starting to think to move because of how busy the area has become . Hale end rd and Winchester rd just can't cope with anymore traffic especially bin days the area becomes to a standstill. The air pollution can be awful at times .Therefore you do not get my families vote for the towers

Thank you
