

NEXT STEPS

The Sutherland Road public realm improvement scheme design will now be finalised. Following design finalisation, Statutory Notices for the new traffic calming features will be advertised, which will include posting relevant information on lamp columns along the road with details on how to provide any further comments. Construction is expected to start towards the end of 2023 and we will notify all addresses located near to the construction sites before work begins.

Residents living within the proposed CPZ scheme area will be written to separately with information on the next steps and any further statutory processes for any potential changes to parking, waiting and loading restrictions.

For further information please visit the Enjoy Waltham Forest website, which includes the consultation document, scheme plans and other project information. You can also contact us using the details below.

WALTHAM FOREST

www.enjoywalthamforest.co.uk

Waltham Forest Council is in the process of delivering public realm improvements that will transform Sutherland Road, making it a more enjoyable place for residents, businesses and visitors.

Between 23 June and 21 July 2023 the local community were invited to take part in the public consultation for the Sutherland Road public realm improvements scheme. Thank you to everyone who took part in the consultation and shared their thoughts on the proposals.

We have now analysed the results from the consultation, which you can find below along with information on the next steps for the scheme.

PUBLIC CONSULTATION RESULTS

The table below shows a breakdown of sentiment towards the proposals, with 62.5% of all responses showing a positive sentiment and 22.2% negative. This is reflected by those who live within the consultation area, showing a 59.3% positive and 22.0% negative sentiment among those respondents.

How do you feel about the overall scheme proposals?	% All respondents	% Responses within the scheme area
Positive	62.5%	59.3%
Neutral	13.9%	16.9%
Negative	22.2%	22.0%
Blanks	1.4%	1.7%
Total	100%	100%

The responses to the questionnaire and emails received have been used to influence the final scheme design, which is shown on the plan overleaf.

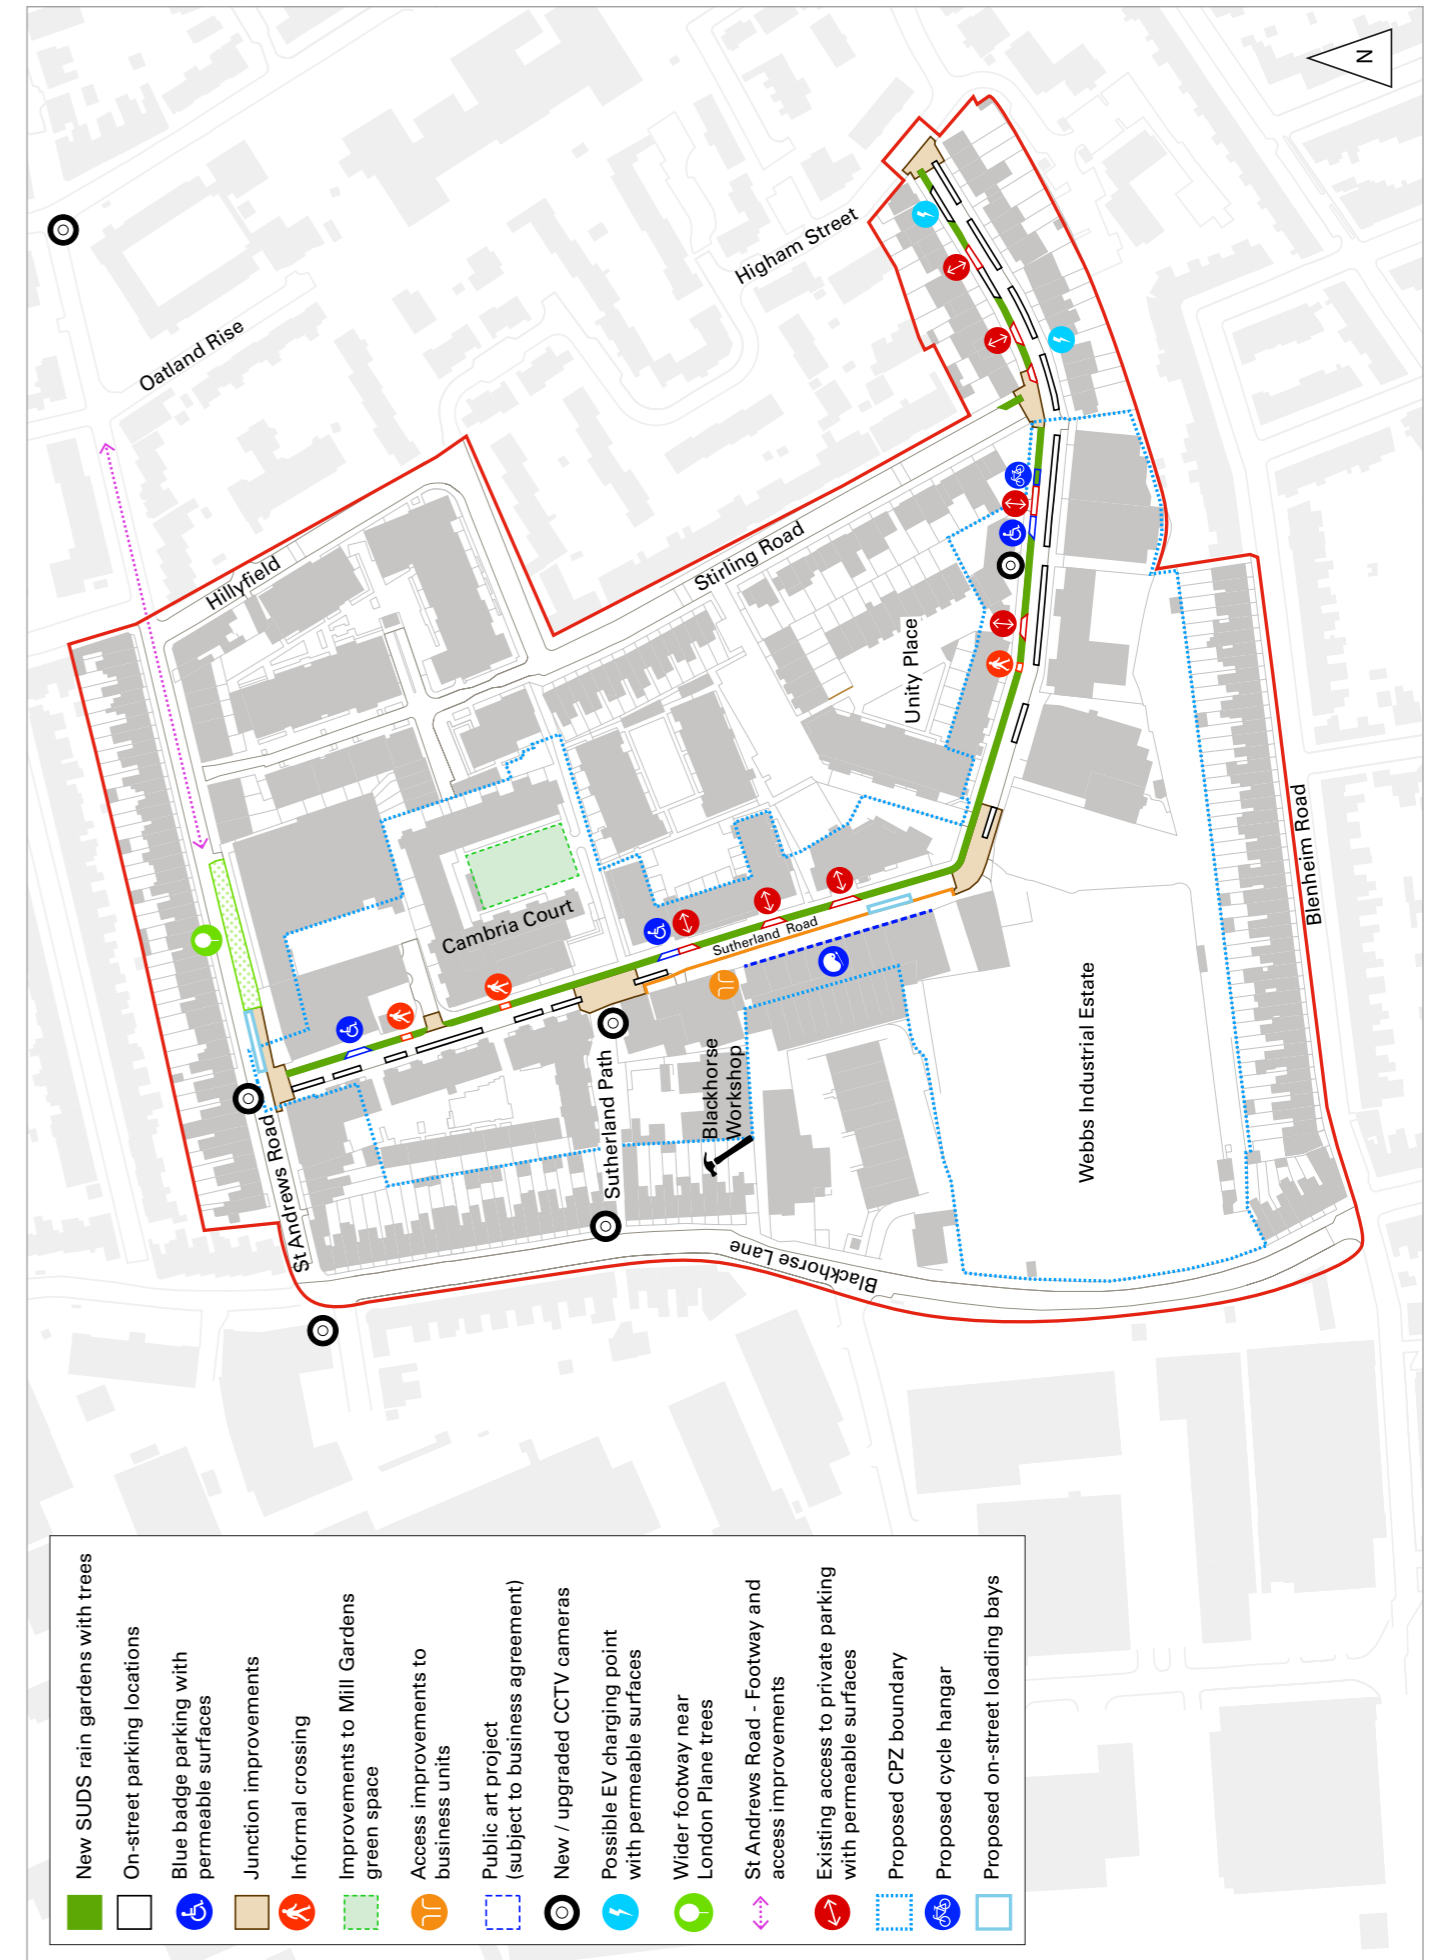

SUTHERLAND ROAD CONTROLLED PARKING ZONE (CPZ) SCHEME

During the public consultation for the public realm improvement scheme, the Council also consulted residents on proposals for a new CPZ for Sutherland Road, to address concerns raised by the local community regarding parking issues, and to make space for the new rain gardens and wider scheme improvements.

It was proposed that the CPZ would be delivered alongside the public realm scheme to prioritise parking for the local community, and residents were invited to complete a separate CPZ consultation leaflet.

The results from the CPZ have been analysed and residents living within the proposed CPZ scheme will receive a notification leaflet outlining the results and next steps in October 2023.

SCHEME PLAN

- New SUDS rain gardens with trees
- On-street parking locations
- Blue badge parking with permeable surfaces
- Junction improvements
- Informal crossing
- Improvements to Mill Gardens green space
- Access improvements to business units
- Public art project (subject to business agreement)
- New / upgraded CCTV cameras
- Possible EV charging point with permeable surfaces
- Wider footway near London Plane trees
- St Andrews Road - Footway and access improvements
- Existing access to private parking with permeable surfaces
- Proposed CPZ boundary
- Proposed cycle hangar
- Proposed on-street loading bays
