LONDON BOROUGH OF WALTHAM FOREST (LBWF)

PROVISION OF JUNCTION PROTECTION DOUBLE YELLOW LINES (LBWF BATCH 23)(E4 AND IG8 ROADS) (T10(26)

(Note: This notice is about the introduction of "no waiting at any time" restrictions to improve junction visibility and prevent obstructive parking at 28 junctions within the E4 and IG8 areas as part of a junction-protection safety scheme.)

The Waltham Forest (Parking Places, Loading Places and Waiting, Loading and Stopping Restrictions) (Amendment No. *) Order 202*

STATEMENT OF REASONS

The Council is proposing to introduce *"no waiting at any time"* restrictions (double yellow lines) at 28 junctions within the E4 and IG8 areas of the London Borough of Waltham Forest. These measures are required to improve road safety by preventing vehicles from parking close to junction mouths, which currently restricts visibility for drivers and pedestrians, obstructs the free flow of traffic, and increases the risk of collisions.

Introducing these restrictions will help ensure that junction corners remain clear, maintain safe sightlines, and provide improved access for emergency services, refuse vehicles and other large vehicles.

The proposals support the Council's duty under the Road Traffic Regulation Act 1984 to secure the safe and efficient movement of traffic, including pedestrians. They also align with established safety guidance that vehicles should not park near junctions and are intended to address ongoing issues of obstructive parking reported by residents and observed during site assessments. The restrictions are therefore considered necessary, proportionate and in the interests of highway safety and accessibility.
