Dear Sir / Madam,

Peterborough Road Neighbourhood Scheme – Proposed Changes

Further to our letter dated 17 March 2015, I now write to inform you that the works for the proposed amendments to the traffic management measures are nearing completion and will come into effect on **11 May 2015**.

The changes include:

- Peterborough Road - the section between Carnarvon Road and Canterbury Road will revert to two-way traffic. This will mean that the current no entry signs compelling traffic to turn into Nottingham Road from Peterborough Road will be removed.
- Peterborough Road will still have a one-way system working in two sections :
 - Firstly between Lea Bridge Road and Carnarvon Road - (southbound in from Lea bridge Road), and
 - Secondly between Colchester Road and Canterbury Road - (northbound towards Lea Bridge Road).
- Essex Road - The current section of one-way working between James Lane and Colchester Road will revert to two-way working.

The attached map shows the amendments. Please visit <http://www.walthamforest.gov.uk/Pages/Services/Roads-safety-traffic-schemes.aspx> for an electronic version.

As stated before, it is expected that the new traffic conditions will again take several weeks to settle down whilst local residents and other drivers experiment with different routes through the area. It is hoped that no further modifications will be required, but the Council will monitor the effects of the scheme once more to see how the traffic movements have changed.

If you have any queries on the proposals, please direct them to the following address:
